Valle Vista

898 E Main Street
Greenwood, IN 46143
1-800-447-1348

<https://www.vallevistahospital.com/>

Valle Vista is a mental health facility that offers a full continuum of care including day or evening outpatient services, intensive outpatient services, partial hospitalization, residential treatment and acute inpatient services. We are a TRICARE ® provider for inpatient services along with most other insurance providers, Medicare, and Medicaid (ages 5-21). We help each patient evaluate and succeed in regaining a healthy balance between the mental, physical and spiritual aspects of their lives.

- Programs and ages:
 - **Acute Inpatient Psychiatric Program-** Our inpatient treatment program for adults works to quickly stabilize the most serious symptoms and allow for a transition to less intensive levels of mental health care
 - Children 5 to 12
 - Adolescents 13 to 18
 - Adults 18 and above
 - **Acute Inpatient Chemical Dependency Program**
 - Adolescents 13 to 18
 - Adults 18 and above
 - **Acute Inpatient Dual Diagnosis Program**
 - Adults 18 and above

- **Partial Hospitalization Programs-** Outpatient treatment for patients who don't need around-the-clock care, including those who need to "step down" as a transition from a hospital setting. Typical enrollment is two weeks.
 - Children 5 to 12
 - Adolescents 13 to 18
 - Adults 18 and above
- **Residential Services**
 - Adolescent "Girls Only" 12 to 18 (Psychiatric and Chemical Dependency)
 - Adult 18 and above (Chemical Dependency)
- **Intensive Outpatient Program** Short-term, outpatient treatment for patients who don't need around-the-clock care. Less concentrated level of treatment than the partial program.
 - Adult Chemical Dependency Program 18 and above
 - Adult Psychiatric Program 18 and above
- **Individual Outpatient Counseling**
- Adolescents 13 to 18
- Adults 18 and over

Emberwood Center

1431 N Delaware St.
Indianapolis, IN
(317) 536-7100

Emberwood Center is a recovery organization located around the Indianapolis area. This center focuses on treating substance abuse for adults and adolescents. Their philosophy of work stems from the belief that individuals suffering from addictive issues could be treated by giving them proper attention and a safe environment to live. This recovery facility employs this philosophy in the outpatient and Intensive Outpatient services as well as the 12-step program to efficiently treat addiction in their clients. They provide group and individual treatment based on the assessment of the calendars. They also integrate Motivational Enhancement Therapy (MET), relapse prevention groups, social support groups and early recovery groups in their counseling sessions. Payment options include medicaid or private pay with a sliding scale fee. Provide sessions in English and Spanish.

Eskenazi Hospital - Midtown Mental Health Center

720 Eskenazi Avenue

Indianapolis, IN 46202

Eskenazi Hospital offers crisis intervention services. They have a outpatient detox program themselves and can assist with finding inpatient in crisis.

Fairbanks

8102 Clearvista Parkway

Indianapolis, IN 46256

Fairbanks offers individualized care to meet the needs of each person. They offer variance treatment programs all the provide life skill development, education, support for your family and guidance on how you achieve lifelong recovery. Final cost of treatment is determined by the level of care required, the length of participation and specific medical treatment required. Self pay discounts and payment plans are available to individuals who do not have insurance coverage. They suggest you contact your insurance provider and learn about the inpatient or outpatient benefits you may have for your treatment needs. Fairbanks offers a variety of treatment programs for adolescents, young adults (men 19-24), and adults, all of which incorporates relapse prevention, group therapy, nutrition education, stress management/life skills development, family education groups, AA, CA, NA meetings or workshops, spirituality, recreational therapy, and acupuncture (if desired). Below are the differing programs they offer:

- Programs
 - Inpatient-This level of care includes detox, rehab, residential treatment and involvement in 12-step recovery groups. Fairbanks incorporates visitation with our family programs, which provides loved ones with information about addiction and recovery.
 - Outpatient
 - Partial Hospitalization (PHP)- PHP is for medically stable individuals who live in a supportive environment and have daily transportation for on-campus programming. Partial hospitalization is comparable to rehab, but allows the patient to return home nightly. Involvement in 12-step recovery groups such as Alcoholics Anonymous (AA), Narcotics Anonymous (NA) or Cocaine Anonymous (CA) is emphasized.
 - Intensive Outpatient (IOP)- IOP offers group therapy several days and evenings per week. Education is offered to individuals and their families through special weekly family programming. Individuals are expected to participate in a 12-step recovery program. Special groups are available for chronic relapse patients. Outpatient programming is also provided in Hendricks County.
 - Recovery High School- Hope Academy is a fully accredited, tuition-free, Indiana public charter high school that provides opportunities for academic achievement, sobriety and personal growth for students and their families. Hope Academy students earn Core 40 and Academic Honors Diplomas, and have the opportunity to take dual credit courses.
